Dear Member:

You have called us and requested that location \_\_\_\_\_ located in \_\_\_\_\_ quarter of Section \_\_\_\_\_, Township \_\_\_\_\_, Range \_\_\_\_\_, be changed to idle services. Please read this letter and sign below if you agree to comply with the idle service policies.

Policy 508 -Idle Services states "Any person owning property which has facilities to provide electric service for use on their property shall pay \$ ~~300~~ 300.00 plus tax per year to retain the facilities on their premises. If the owner no longer has use for electric service on the premises and refuses to pay the above amounts, the facilities may be removed by the Cooperative. In this case, the Cooperative will send a letter asking the owner to sign a statement indicating that the need for electric service no longer exists and that he/she does not want the facilities left in place. The letter will indicate a due date for payment, if a removal release isn't signed and payment isn't received, the service will be removed. The service will not be reinstalled without payment of a portion of the costs of reinstallation."

Policy 315- Fees Policy states "Any nonresidential service which has been disconnected and is subsequently reconnected within one year of the disconnection shall be charged a Connect Fee – Non-Standard. The charge for this fee shall be \$250.00 plus tax."

This location will not be transferred to idle services until this agreement is signed, dated and received at FEM Electric.
